Ambika Nagar, Nagpur, Maharashtra | +91 8788358100 | contact@mr-silicon.in | www.mr-silicon.in

PROFESSIONAL SUMMARY

Software Developer with a strong foundation in cybersecurity and Android application development. Experienced in designing secure, user-centric mobile applications and implementing security protocols to protect sensitive data. Skilled in Flutter, Python, and Django, with hands-on project experience building operating systems, blockchain systems, and developer tools. Certified in Prompt Engineering (IIT Bombay) and Cybersecurity (TuteDude).

TECHNICAL SKILLS

Programming Languages: Python, Dart

Frameworks: Flutter, Django, FastAPI

Cybersecurity: Threat Analysis, Secure Application Design, Cryptographic Hashing (SHA-256)

Tools & Platforms: Git, GitHub, Linux System Administration

Other: Prompt Engineering, Version Control, Peer-to-Peer Networking

Spoken Languages: English, Hindi, Marathi

PROJECTS

Custom Linux Operating System

Personal Project

- Engineered a customized Linux-based operating system tailored for optimal performance and a secure development environment.
- Integrated core system utilities and customized the graphical user interface to enhance user experience and accessibility.
- Conducted rigorous system testing to ensure long-term stability, broad hardware compatibility, and robust baseline security configurations.

Blockchain Database in Python

Personal Project

- Developed a decentralized blockchain database system from scratch using Python to ensure data integrity and immutability.
- Implemented cryptographic hashing algorithms (SHA-256) to securely link blocks and prevent unauthorized data tampering.
- Designed a peer-to-peer networking architecture to synchronize blockchain state across multiple distributed nodes.

Code Editor in Python

Personal Project

- Created a lightweight, syntax-highlighting code editor using Python and Tkinter for a streamlined development experience.
- Integrated productivity features including real-time error detection, auto-indentation, and multi-language support.
- Optimized file handling operations, improving load times and memory efficiency for large scripts.

EDUCATION

Bachelor of Science in Data Science

Expected 2027

RTMN University

CERTIFICATIONS

- Prompt Engineering — IIT Bombay
- Cybersecurity — TuteDude

AWARDS & ACTIVITIES

- 1st Rank, Coding Compilation – Techtrix (Priyadarshni)
